Indy E-Cycle has the right to refuse any item for drop off, please be considerate and respectful to all those involved in coordinating this event. Disposal fees align with those charged by large scale electronic recycling facilities in the area and that money is given directly to them. If you are unsure what category an item falls under please send me an email ahead of time (indyecycle@proton.me) and I would be happy to help.

*All data bearing devices are securely sanitized in accordance with NIST 800-88 or destroyed
Certificate of destruction available upon request for sensitive devices.
All e-waste recycled with registered e-waste recycling facilities
